LifeLock with Norton Benefit Premier helps provide employees peace of mind with comprehensive protection for their identity, connected devices, and online privacy with SafeCam.

Enhanced features include Home Title Monitoring, Bank Account Takeover Alerts and Three Bureau Credit Monitoring. If a potential identity threat is detected in our network, the employee is notified via email, text, phone or mobile app alerts.

LifeLock with Norton Benefit Premier also combines leading identity theft protection with device security and protection against online threats to help protect against identity thieves trying to steal personal information from PCs, Macs, and mobile devices. This plan also includes up to 50 GB of Norton Cloud Backup as a preventive measure to data loss due to hard drive failures and ransomware, Parental Controls to help members manage their kids’ online time and Password Manager to securely manage passwords and logins.

The NortonLifeLock Advantage

Everyday things like online shopping, banking and even browsing can expose your employees’ personal information and make them more vulnerable to cybercrime. Since cybercrime has evolved, we’ve evolved, too. LifeLock, a leader in identity theft protection and Norton, a pioneer in consumer cybersecurity, are now one company. Our innovative employee benefit plans will help protect an employee’s identity, personal information and connected devices from the myriad of threats they may face in their digitally-connected homes and workplaces.

If you’re looking to offer your employees protection for today’s connected world, you’ll find the NortonLifeLock advantage is what you need.

LifeLock Identity Protection features:

- **Home Title Monitoring**
  - Your home is likely your biggest asset, but how often do you monitor the title to your home? Someone could take out a loan and lien against your home without your knowledge. We will monitor and notify you if we detect changes made at the county recorder’s office related to your home’s title so you can take necessary action to protect your home.

- **Credit, Bank & Utility Account Freezes**
  - Criminals can steal your identity to open credit cards, bank accounts or utilities in your name. We provide easy instructions and quick access so you can freeze credit, bank and utility files with each consumer reporting company to help protect against criminals using your information to open new accounts or take out loans in your name.

- **LifeLock Skill for Amazon Alexa**
  - This feature provides access to your LifeLock account information through Alexa, allowing you to easily find your credit score, recent transactions or respond to alerts.

- **Identity Verification Monitoring**
  - Your identity may be verified when opening a new credit card or similar activities by asking you security questions. We monitor our network and alert you if we detect a company is trying to verify your identity so you can take action to help protect your identity.

- **LifeLock Identity Alert System**
  - It’s the foundation for all LifeLock services. We monitor for fraudulent use of your Social Security number, name, address, or date of birth in applications for credit and services. The patented system sends alerts by text, phone, email, or mobile app.

- **Dark Web Monitoring**
  - Identity thieves can sell your personal information on hard-to-find dark web sites and forums. LifeLock patrols the dark web and notifies you if we find your information.

- **LifeLock Privacy Monitor**
  - Privacy Monitor helps reduce public exposure of your personal information. We scan common public people-search websites to find your personal information and help you opt-out.

- **24/7 Live Member Support**
  - We have live Identity Protection Agents available to answer your questions.

- **Fictitious Identity Monitoring**
  - We scan for names and addresses connected with your Social Security number to help protect against criminals building fictitious identities to open accounts or commit fraud.

No one can prevent all identity theft or cybercrime. SEE OTHER SIDE OF THIS FLYER FOR ALL REFERENCED DISCLAIMERS.
LifeLock Identity Protection features (continued)

**Bank & Credit Card Activity Alerts**
Help protect your finances against fraud with alerts that notify you of cash withdrawals, balance transfers and large purchases.

**Million Dollar Protection Package**
If you become a victim of identity theft, we help protect you with our Million Dollar Protection Package. This includes reimbursement for stolen funds and coverage for personal expenses, each with limits up to $1 million, and coverage for lawyers and experts if needed up to $1 million, to help resolve your case.

**Bank Account Takeover Alerts**
Smart identity thieves use their computers to take over accounts or add new account holders to existing accounts. LifeLock helps protect your finances by monitoring for these changes.

**Checking and Savings Account Application Alerts**
Continuously searches for your personal information in new bank account applications at national banks, local banks and credit unions from coast to coast.

**Three-Bureau Credit Monitoring**
We monitor key changes to your credit file at the three leading credit bureaus and alert you to help detect fraud.

**Three-Bureau Annual Credit Reports & Credit Scores**
Online access to your annual credit reports and credit scores from the three primary Unions: Equifax, TransUnion and Experian. It's a convenient way to see details of your credit history over the past year.

**SafeCam**
Helps protect your personal files and data on your device by blocking unsuitable sites, and monitoring search terms and overall activity history.

**SafeCam**
Computers, tablets, and mobile devices store many cherished and important documents from family photos to resumes to tax returns. Norton Cloud Backup provides secure cloud-based storage for important files and documents as a preventative measure to data loss due to hard drive failures, stolen devices and even ransomware.

**Password Manager**
Passwords written on a sticky note or the same password used for every account may make your personal information vulnerable. Norton Password Manager provides the tools you need to create, store, and manage every password, your credit card information and other credentials online — safely and securely in your very own encrypted, cloud-based vault.

**Parental Control**
Helps protect kids from threats by highlighting their online activity and identifying potential dangers before they become problems. Easy-to-use tools allow parents to set screen time limits, block unsuitable sites, and monitor search terms and overall activity history.

**Cloud Backup**
Computers, tablets, and mobile devices store many cherished and important documents from family photos to resumes to tax returns. Norton Cloud Backup provides secure cloud-based storage for important files and documents as a preventative measure to data loss due to hard drive failures, stolen devices and even ransomware.

**One-Bureau Monthly Credit Score Tracking**
This monthly one-bureau credit score tracker helps you identify important changes and see how your credit is trending over time.

The credit score provided is a VantageScore 3.0 credit score based on Equifax data. Third parties use many different types of credit scores and are likely to use a different type of credit score to assess your creditworthiness.

**Stolen Wallet Protection**
A stolen wallet could lead to a stolen identity. Call us if your wallet is stolen and we’ll help cancel or replace credit cards, driver’s licenses, Social Security cards, insurance cards and more.

**U.S.-Based Identity Restoration Specialists**
If your identity is compromised, an Identity Restoration Specialist will personally handle your case and help restore your identity.

**One-Bureau Credit Application Alerts**
We monitor your credit file at a leading credit bureau and provide alerts for any new credit applications to help detect fraud.

**401K & Investment Account Activity Alerts**
Investment and retirement accounts are often the lifeline for financial growth. We’ll help protect your nest egg from fraudulent cash withdrawals and balance transfers.

**Norton Device Security features:**

**SafeCam**
The webcam on your PC is a great way to keep in touch with family, friends or colleagues. But it can also be vulnerable to hacking. With SafeCam, we provide a notification if cybercriminals try to use your webcam, so we can help block them.

**Online Threat Protection**
Advanced security helps protect against existing and emerging malware threats to your devices, and help protect your private and financial information when you go online.

**Smart Firewall**
Helps protect your personal files and data on your device by monitoring and blocking suspicious network traffic.

---

1 If your plan includes credit reports, scores, and/or credit monitoring features (“Credit Features”), two requirements must be met to receive said features: (i) your identity must be successfully verified with Equifax; and (ii) Equifax must be able to locate your credit file and it must contain sufficient credit history information. IF EITHER OF THE FOREGOING REQUIREMENTS ARE NOT MET YOU WILL NOT RECEIVE CREDIT FEATURES FROM SUCH BUREAU UNTIL THE VERIFICATION PROCESS IS SUCCESSFULLY COMPLETED AND UNTIL THEN, PLEASE REFER TO YOUR MEMBER AGREEMENT. Any credit monitoring from Experian and/or TransUnion will take several days to begin after your successful One Bureau Credit Application Alerts alert. If your plan also includes Credit Features from such bureau(s) until the verification process is successfully completed and until then, please refer to your member agreement. Any credit monitoring from Experian and/or TransUnion will take several days to begin after your successful One Bureau Credit Application Alerts alert.

2 If your plan includes One Bureau Credit Application Alerts, two requirements must be met to receive said features: (i) your identity must be successfully verified with TransUnion; and (ii) TransUnion must be able to locate your credit file and it must contain sufficient credit history information. IF EITHER OF THE FOREGOING REQUIREMENTS ARE NOT MET YOU WILL NOT RECEIVE ONE BUREAU CREDIT APPLICATION ALERTS. One Bureau Credit Application Alerts will take several days to begin after your successful plan enrollment.

No one can prevent all identity theft or cybercrime.

The LifeLock alert network includes a variety of product features and data sources. Although it is very extensive, our network does not cover all transactions at all businesses, so you might not receive a LifeLock alert in every situation.

If phone alerts are made during normal local business hours.

If all features are available on all platforms. Norton Family Parental Controls, Norton Cloud Backup, and SafeCam are presently not supported on Mac OS.
